Wednesday, June 4th, 2014

Location: Vancouver Community College, room 240, 250 W. Pender St., Vancouver

Presenter: Michael Delage, VP Strategy & Corporate Development, General Fusion

Topic: [Fusion Energy - General Fusion's Novel Technology](#)

Wednesday, May 7th, 2014

Location: Vancouver Community College, room 240, 250 W. Pender St., Vancouver

Presenter: Malcolm Metcalfe, Founder, Chief Technology Officer, ENBALA Power Networks

Topic: [The Challenges of Integrating Renewable Energy into the Grid](#)

Wednesday, April 9th, 2014

Location: Vancouver Community College, room 240, 250 W. Pender St., Vancouver

Presenter: Mark Dubois-Phillips, Powertech Labs

Topic: Overview of BC's Leading Electric Car Infrastructure

BC has been acknowledged as a leader in North America in electric vehicle infrastructure development yet recent developments call into question BC's commitment going forward. Mark will discuss the electric vehicle story in BC and Canada while illustrating local activities/policy developments and progress on infrastructure deployments. He will cover how Canada and BC compare with leading jurisdictions globally and what BC needs to do to maintain his global leadership.
