

Happy Anniversary! Celebrating 20 years of energizing dialogue.

PEIA and Its Mission

The Pacific Energy Innovation Association (PEIA) is an independent, non-profit association of energy professionals incorporated under the Societies Act of British Columbia.

Mission

To initiate and promote discussion and action for energy innovation, efficiency and sustainability.

PEIA offers objective, thought-provoking dialogue on energy supply, demand and the associated technologies and policies required by sustainable economies in the near- and long-term.

While its efforts are focused on British Columbia and Western Canada, PEIA seeks opportunities for collaboration with organizations in other jurisdictions to further mutual objectives. PEIA recognizes that most issues and challenges are global, but solutions must be regional to meet local economic and environmental needs.

Event News

[PEIA FOUNDERS' 20TH ANNIVERSARY~1999 to 2019~](#)

Wednesday, October 16th - 5:00-7:30pm

Honoured Guest Speaker:

Dr. Mark K. Jaccard, Professor, Resource and Environmental Management, Simon Fraser University

Please join us to hear from our Honoured Speaker Dr. Mark Jaccard as he completes his upcoming publication “The Citizen’s Guide to Climate Success”. The book will help define a path forward for individuals’ local action, with policies that focus on the globalization of effort. Dr. Jaccard looks forward to your questions and active discussion, as everyone wrestles with “What do we do, first?”
